

Hand Exercises *(page 1 of 6)*

This leaflet is a reminder of the exercises you have been given by your therapist.

- Please only do the exercises you have been instructed to do.
- Only do each exercise the number of times written in the box.
- Repeat each exercise
- These exercises are to help improve the movement of your hand after injury/surgery.
- If you do not do these exercises your hand will more likely become stiff. This will stop it from working normally.

If you have any problems please contact your therapist.

1. Start with your fingers and wrist straight

- Slowly bend your wrist forwards, keeping your fingers relaxed.
- Now take it back as far as you can.
- Note that your fingers may bend as you take your wrist back.

Starting position

Do the exercise

times.

times daily.

If you need your information in another language or medium (audio, large print, etc) please contact Customer Care on 0800 374 208 or send an email to: customercare@salisbury.nhs.uk

You are entitled to a copy of any letter we write about you. Please ask if you want one when you come to the hospital.

If you are unhappy with the advice you have been given by your GP, consultant, or another healthcare professional, you may ask for a second (or further) opinion.

The evidence used in the preparation of this leaflet is available on request. Please email: patient.information@salisbury.nhs.uk if you would like a reference list.

2. Start with your thumb and fingers straight.

- touch the tip of your thumb to the tip of each finger in turn, making an 'O' shape.
- Return to the starting position between making each 'O'.

Starting position

Do the exercise times.

times daily.

3. Start with your fingers and wrist straight.

- Spread your fingers as far apart as possible.
- Bring them back together again
- Remember to include your thumb in these exercises.

Starting position

Do the exercise times.

times daily.

4. Start with your fingers and wrist straight.

- Gently curl the tips of your fingers down towards the top of your palm.
- Then straighten all your fingers back out to the starting position.

Starting position

Do the exercise times.

times daily.

5. Start with your fingers and wrist straight.

- Squeeze your fingers together and bend at the knuckles.
- Make sure your fingers do not bend.
- Straighten all your fingers back out to the starting position.

Starting position

Do the exercise times.

times daily.
