Follow up appointment after a Hearing Aid Fitting

At this appointment your audiologist will find out how you are getting on with your hearing aid(s), help you with any difficulties you are having and make any adjustments that are needed. The appointment will take up to 30 minutes.

The audiologist will:

- ask you how you are getting on with your new hearing aid(s)
- ask about how well you hear with your aid(s) in different everyday situations, how much you use them and how satisfied you are with them
- ask whether you are having any problems putting in your hearing aid(s), looking after them and changing the battery
- ask if they are comfortable, whether you find the controls easy to use and whether they sound satisfactory
- make any adjustments that are needed
- make sure that you have all the information you need
- make sure you are aware of repair clinics and battery re-issue arrangements.

If the audiologist considers it appropriate, you may be offered a telephone follow-up rather than having to attend a clinic appointment.
