Welcome to our Hospital Open Day 2026

We are delighted to welcome you to a day of fun, discovery and inspiration.

Today is an opportunity not only to see what happens inside a

hospital, but also to meet the people whose dedication and compassion make it all possible.

Across the hospital and in the marquees on The Green, there is something for everyone. Enjoy interactive activities including plaster casting, the popular Toy Clinic, simulation manikins, pathology lab experiences and even the chance to try surgery in an operating theatre – a unique opportunity to see the NHS in action.

You will also meet teams from across the hospital alongside our partners from Wiltshire Fire & Rescue Service, Wiltshire Police and E-zec Medical Ambulance Services, with emergency vehicles on display throughout the day.

A hospital is far more than machines and medicine. It is people – nurses, scientists, porters, therapists, engineers, volunteers

and many others – working together every day to care for our community.

In addition to all the activities, enjoy live music, ice cream, therapy pets and discover more about the hospital's history, from its beginnings as an American Field Hospital in 1942 to the healthcare centre it is today.

Scan the QR code below and follow the signs and footprints to plan your route around the hospital.

This is my first Open Day since joining Salisbury in September 2025, and I continue to be inspired by the dedication of our teams representing many of the 350 NHS careers.

Thank you to all our colleagues, partners and volunteers who have made today possible.

We hope you have a wonderful day and enjoy being part of #TeamSalisbury.

Nick Johnson, Managing Director
