

Henry goes to MRI

Radiology is on Level 3

Henry books in at MRI reception.

Henry sits in the waiting area and waits his turn.

Hello, my name is Ash.
I am a Radiographer.
I'm going to ask a few
safety questions.

If a grown up is staying with
you during the scan, they will
need to answer questions too.

Henry places his belongings
into the locker.

Henry waits until the MRI
room is ready.

We are ready.
This is the MRI room.

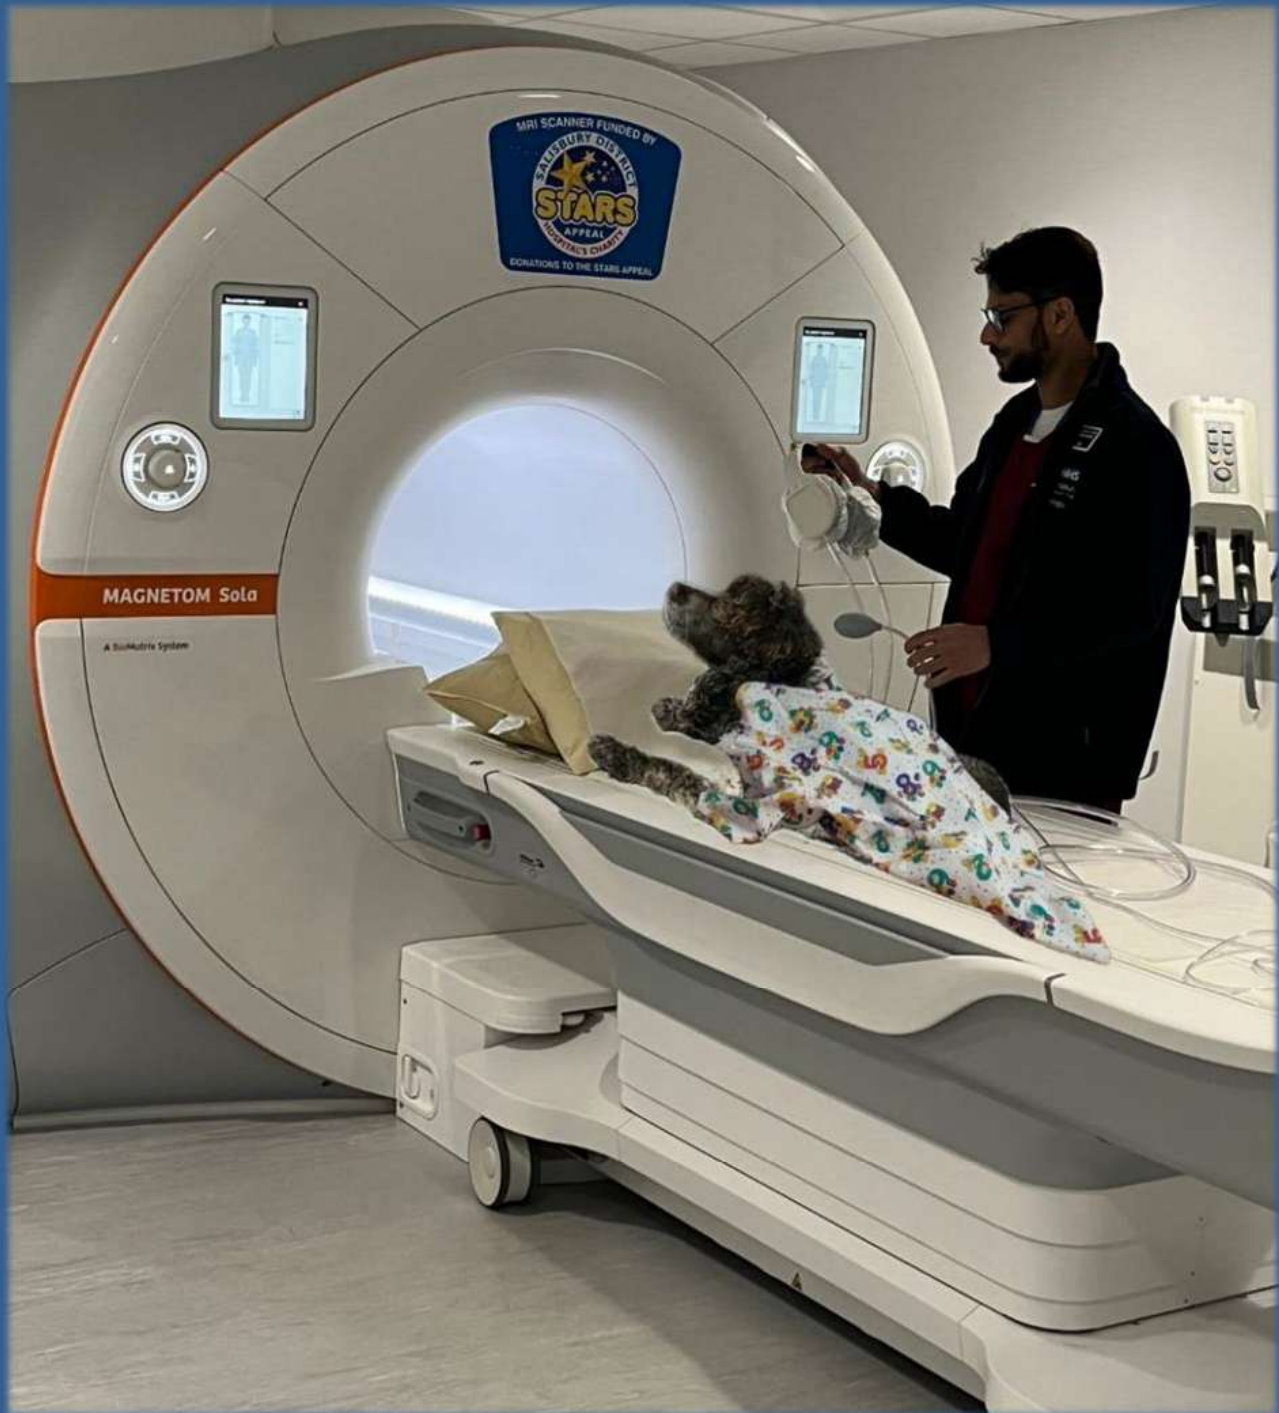

Henry gets on to the bed and is asked to wear some special equipment.

It's a bit noisy.

There is a button to squeeze if you need help during your scan.

The bed moves into the MRI scanner.

The Radiographer tells Henry how long the scan will take.

It didn't touch me.

I had to lie very still.

It didn't hurt.
