Recommendation
To note the items for escalation and the mitigation in place.

Items for Escalation to Board
Items for escalation from the July 2018 Clinical Governance Committee: 1) Potential impact on quality associated with workforce issues mitigated by ongoing recruitment campaign and monitoring of quality and performance. 2) Deferred feedback from the initial major incident to incorporate multiagency feedback from the 2nd major incident. 3) New national guidance on pressure ulcer reporting may lead to an increase in hospital acquired pressure ulcers if not recorded at time of admission.
